HONDA

GENUINE HONDA

When it comes to maintaining a beautiful lawn, nothing makes the cut like a genuine Honda lawnmower. Behind every exclusive feature, you'll find technology that crosses our entire product line. Technology born and tested on racetracks and roadways around the globe that continually keeps us on the cutting edge. From automobiles, race cars, motorcycles and all-terrain vehicles to marine engines, general-purpose engines and power equipment products, Honda is committed to designing products that meet or exceed the demands of our customers across the board. In fact, Honda is currently the only manufacturer of lawn and garden power products with 50-state engines that meet stringent CARB emission requirements. It's no wonder Honda makes more engines than anyone else on earth!

Yes, throughout our history, Honda has been dedicated to technological and environmental innovation, and today is no different. After all, we have a legendary reputation to live up to. A reputation for unsurpassed quality, performance and reliability. A reputation worth considering the next time you're in the market for a new lawnmower.

Both our HRC models come with an exclusive feature no one else offers, The Twin Blade Advantage. In a microsecond, with each rotation of the blades, the grass is cut, then cut again for a smooth, even surface.

But that's just the beginning. Twin blades produce finer clippings for mulching, and when bagging you'll be emptying a lot less

**TWIN

ADVANTAGE**

because smaller clippings means you can go further before the bag is full. A perfect cut, a better looking lawn and less work for you is what you get with the Twin Blade Advantage. When you also consider Honda's reliability, quiet operation and fuel efficiency, you've got an advanced piece of machinery that will work hard for you for years to come.

Honda Commercial Series

FEATURES & OPTIONS

HRC216K2HXA

Hydrostatic transmission rear bagger with engine upgrade and Roto-Stop® blade brake clutch.

HRC216K2PDA

Push mower with legendary commercial-grade OHV engine and flywheel brake.

Honda OHV Engine

Honda's easy-starting commercial-grade overhead valve engine gives you all the features you need, along with increased fuel efficiency and the ultimate in reliability. Plus, it has enough power for the most demanding mowing conditions.

Large Grass Bag

The large capacity grass bag means you'll increase your productivity because you'll spend more time mowing rather than emptying the bag. But, even when you do, the easy-to-use on/off feature makes it quick and easy.

Steel Mowing Deck

The 21" heavy duty steel mowing deck is tough, rugged, and built to last.

Heavy Duty Handles

The HRC mowers all feature heavy duty steel pipe handles for durability but are also ergonomically designed for your comfort.

Ball Bearings

The Honda Commercial Series mowers feature sealed ball bearings for a smoother and more precise roll.

ALL AVAILABLE STANDARD & OPTIONAL FEATURES:

Honda 4-stroke, single-cylinder OHV commercial engine

21" heavy-duty stamped steel deck

Cruise Control (hydrostatic drive)

Exclusive twin-blade MicroCut™ system

Shaft drive

Electronic ignition

Recoil start

Ball bearing supported wheels

Muffler/heat protector

Sealed control cables

Handle support brackets

Rear mount, side discharge chute

8 mowing height adjustments

Rugged large capacity easy-empty grass bag

Roto-Stop® blade brake clutch

Front & side deck guards standard

Heavy duty 9" Xenoy® wheels

(For specific model specifications and options, see the following page.)
